CAM2® SuperPro Max Synthetic Blend Motor Oil

ILSAC GF-6A / API SP (80565-086/087/088/089/090)

CAM2® SuperPro Max Synthetic Blend delivers exceptional performance and protection for vehicles of all ages. Combining carefully selected conventional and synthetic base oils with our most robust additive package to date provides unmatched protection against Low Speed Pre-Ignition even in the most advanced turbo charged applications. CAM2® SuperPro Max utilizes this new additive technology to keep dirt and other contaminants that rob your engine of power out while also ridding the system of sludge and other harmful deposit buildups.

CAM2® SuperPro Max Synthetic Blend exceeds the performance requirements of API's Resource Conserving "SP" and car manufacturers' ILSAC GF-6A classification as well as all prior classifications providing the latest technology in fuel economy standards while also maintaining best in class wear control, cleanliness, protection against sludge, and oxidation control.

CAM2® SuperPro Max was developed in part to provide better vehicle fuel economy, oxidative stability, and piston deposits. These improvement needs are a result of a drive to smaller engines without a sacrifice of power. Technology such as "Eco- Boost (Turbo Charge)", in combination with small engines, provides better fuel economy while maintaining the performance level of the larger engine designs. This technology significantly increases pressure on the lubricant in the form of heat and a need to control wear and deposits.

FEATURES

Low Speed Pre-Ignition (LSPI)

- Protection for small displacement turbo-charged GDI engines.

Excellent Fuel Economy

- Drive an extra 580 miles per year on average
- "Resource Conserving" approved

Maximize Horsepower

- Protects engine components from wear leading to loss of power

Extreme Condition Performance

- Industry leading high temperature deposit control

Engine Cleanliness

- Up to 40% cleaner pistons than the industry standard
- Extremely low volatility providing extended drain protection

Super Pro Max Engine Oils provides exceptional protection and keeps engines cleaner for extended drain intervals in all operating environments.

Piston head after 10,000 miles

Damage from LSPI

Piston head after 45,000 miles

SuperPro Max protecting from LSPI

SPECIFICATIONS & APPROVALS

CAM2 SuperProMax Synthetic Blend exceeds all the following performance requirements or OEM specifications:

- API SP and prior classifications
- ILSAC GF-6A and prior classifications
- ACEA A5/B5-16
- Fiat H2, M2, N2
- Ford WSS-M2C945-B1, Ford WSS-M2C946-B1
