Windshield Washer Fluid

PRODUCT # 433, 438, 439

CAM2 Windshield Washer Fluids are ready to use mix of cleaners and solvents designed to remove road grime and bug splatter and prevent freezing of windshield washer fluid. Comes in 3 formulas for year round protection. Contains an alcohol solvent to effectively remove road grime and bug splatter while also being safe on automotive finishes.

CAM2 Summer -20°F is dyed Blue and is suitable for use in cold climates. Alcoholic base is effective at cleaning grime and bug splatter from glass surfaces leaving a streak-free finish while providing freeze protection down to -20°F.

CAM2 Winter +0°F is dyed Blue and is formulated for use in cooler climates providing below freezing protection. It also contains a streak-free alcoholic base for easy removal of grime and bug splatter.

CAM2 Summer +32°F is dyed Green and contains a heavy duty bug, tar, and road grime detergent for use during bug season. Suitable in warmer climates.
